BULBS FOR WINTER FORCING AND SPRING BLOOMING

We offer bulbs this fall, specially selected from the stock of a few of the leading European growers, which are far above the average as to the even quality of blooming, and in every way surpassing the ordinary grades of Dutch bulbs. Our prices are low for the highest grades. We send nothing but the best quality. The following is a summary of the most popular species and varieties, and we can submit more EXTENDED LISTS ON APPLICATION, with special prices for any quantity desired.

HYACINTHS

SINGLE, RED, ROSE AND PINK

		Each	Doz.
Charles Dickens.	Delicate rosy pink; fine large truss	\$ 15	\$ 1 50
Fabiola.	Pink striped crimson; extra	15	1 50
Garibaldi.	Brilliant crimson; very early	15	1 50
Gertrude.	Bright rosy red, compact spike; very popular	12	1 25
Gigantea.	Delicate shade blush pink, large truss	12	1 25
Lord Macaulay.	Bright rose carmine; large flowers	15	1 50
Moreno.	Deep pink; immense spike	15	1 50
Roi des Belges.	Bright scarlet	15	1 50

Dark Blue.....	60	5 00	40 00
Yellow.....	60	5 00	40 00
Mixed	60	5 00	40 00

Roman Hyacinths

This class of Hyacinths is almost indispensable to the florist in his Autumn and Winter cut flower work, and to the amateur it is the most successful of all flowering bulbs. If planted early in September and gently forced, will bloom in November, or flowers may be retarded until Christmas by keeping in a cool place. Plant six bulbs in a 6-inch pot for good effect.

	Doz	100	1000

large flower; crimson scar-
let with black center

30 2 00 16 00

Golden Crown. Golden yel-
low petals pointed and
edged with red

25 1 00 8 00

NARCISSUS OR DAFFODILS

Next to the tulip the Narcissus is the most popular spring flowering plant. Within a few years it has been learned how easily they will force. Flowers can be had in the house as early as Christmas. They are perfectly hardy and make an excellent effect among shrubbery, in borders, etc.

Large Trumpet Narcissus

Albicans (Spanish Daffodils). Sulphur white Doz. 100 trumpet..... \$ 50 \$3 00

Emperor. Immense flower, clear golden yellow trumpet, deep primrose perianth .. 40 2 75

Empress (Bicolor). Rich yellow trumpet with broad, white perianth; giant flower. 60 4 00

Golden Spur. Immense golden trumpet; early and fine flower 50 3 00

Henry Irving. Very early; deep golden yellow trumpet, white perianth; very handsome 40 2 50

Horsfieldi (King of Daffodils). A grand flower, large golden yellow trumpet, pure white perianth; early forcing..... 40 2 75

Princeps. Large yellow trumpet with sulphur perianth; excellent forcing..... Doz. 100 \$ 20 \$1 25

Trumpet Major (The old-fashioned Jonquil). Trumpet and perianth golden yellow. Very extensively used for bedding or forcing.... 25 1 75

Fall-Flowering Crocus

If planted at once will flower within six weeks after time of planting. Excellent for use among shrubbery, flowering in October.

		Doz.	100
Colchicum autumnale.	Violet	\$ 60	\$ 4 00
Album.	White	60	4 00
Mixed		60	4 00

Erythronium (Dog's-Tooth Violet)

Hardy bulbous plants with broad, spotted and marbled foliage. Flowers early, well suited for shady locations.

		Doz.	100
In Colors —White, Pink, Purple and Violet		\$ 20	\$ 1 25
Mixed Colors		20	1 25

Eremurus

Robustus. A rare plant from Turkestan and excellent for permanent borders. It thrives best in deep sandy loam, well drained, and somewhat sheltered sunny situation. Plenty of stable dressing will improve the flowers which are often two inches across and borne on stems six to ten feet high, covered with rosy lilac flowers. We advise covering four or five inches with leaves or litter for the Winter, as the young shoots start quite early in Spring. Strong flowering roots. \$1.50 each; \$15 per doz.

Freesia

		Doz.	100
Refracta alba odorata.	Flowers pure white. Selected large bulbs	\$ 20	\$ 1 25
Fischer's Purity (New).	The largest and purest white Freesia	50	4 00

ROSES

The planting and care of Roses is fully explained on page 52 of our **General Catalog**, a copy of which every planter should have on file.

STRONG, FIELD-GROWN PLANTS

35c each; \$2 50 per 10; \$20 00 per 100

Abel Carriere. Rich velvety crimson, with fiery center.
Alfred Colomb. Carmine red; very large and full.
American Beauty. Deep pink; shaded with carmine.
Anne de Diesbach. Clear, bright rose, large and fragrant.
Baron de Bonstettin. Velvety maroon; large and full.
Baroness Rothschild. Bright pink; very large.
Captain Christy. Flesh color.
Clio. Large, flesh-color, shaded with rosy pink.
Coquette des Alps. White, tinged with blush. Blooms late.
Countess of Oxford. Carmine red; tinged lilac.
Crested Moss. Deep pink colored buds.
Duke of Albany. Vivid crimson, becoming darker.
Duke of Connaught. Rosy crimson, large.
Duke of Edinburgh. Bright crimson.
Earle of Dufferin. Velvety crimson, shaded maroon.
Fisher Holmes. Brilliant crimson.
Francis Levet. Cherry red, medium, free bloomer.
Frau Karl Druschki. Pure silvery white.
General Jacqueminot. Bright, scarlet, crimson.
Glorie de Margottin. Brilliant scarlet; large; fragrant.

MARCHIONESS OF LONDONDERRY

Grus Teanplitz. Scarlet, shading to velvety crimson.
John Hopper. Bright rose, carmine center.
Jules Margottin. Carmine rose.
Lady Helen Stewart. Bright, crimson scarlet.
LaFrance. Silvery rose changing to pink.
Louis Van Houtte. Reddish scarlet.
Mabel Morrison. One of the best white roses.
Mad. Gabriel Luizet. Light, silvery pink.
Mad. Plantier. Pure white; early summer bloomer.
Mad. Caroline Testout. Large, clear bright rose, very sweet.
Mad. Charles Wood. Vivid crimson.
Magna Charta. Pink and Crimson.
Marchioness of Dufferin. Rosy pink suffused with yellow.
Marchioness of Londonderry. Flowers of great size, measuring seven inches across. Color, ivory white. One of the finest roses.
Margaret Dickson. White, pale flesh color.
Marie Baumann. Brilliant carmine crimson; large, full; very fragrant.
Mrs. Jno. Laing. Soft pink, fragrant; blooms late in Autumn.
M. P. Wilder. Cherry carmine.
Merville de Lyon. Pure white.
Mrs. R. G. Sharman-Crawford. Color, deep rosy pink; flowers large and perfect; free bloomer.
Paul Neyron. Deep rose; very large.
Perle des Blanches. Pure white.
Persian Yellow. Bright yellow.
Pierre Notting. Deep velvety crimson.
Prince Camille de Rohan. Deep velvety crimson.
Soliel d'Or. New. A valuable hybrid, varying in color from gold and orange to reddish gold shaded with nasturtium red.
Ulrich Brunner. Cherry red. A fine rose.
Vick's Caprice. Pink striped with carmine and white.
White Baroness. Pure white.
White Moss. Beautiful in the bud; pure white.

Japanese Roses

30 cts. each; \$2 50 per 10; \$20 per 100

R. rugosa. An upright shrub, attaining 5 to 6 feet in height. Its stout stems are densely beset with prickles; foliage shining dark green, deeply plicated; does not attract insects; flowers single, red, fragrant, and produced freely from June to December; fruit bright crimson-scarlet.

R. var. alba. The habit and foliage is similar to the above, but the flowers are pure white, single and as attractive in the bud as when open; quite fragrant.

Hardy Climbing and Rambler Roses

Price, except where noted, 35 cts. each; \$3 per 10; \$20 per 100

Baltimore Belle. (P.) Pale blush, nearly white; double; a strong grower; very hardy; the best of its class.

Carmine Pillar. Single Rose, the flower from 3½ to 4 inches across; of the brightest possible rosy carmine: produced very abundantly 50 cts.

Crimson Rambler. As a climbing or running Rose, it has no equal. The foliage is rich, dark green, the growth rapid, but its great beauty is when the plant is covered with a profusion of the brightest crimson, double flowers which remain on a long time.

Dawson. Hardy; vigorous; tendency to climb high. Flowers in clusters, similar to the *Rosa multiflora*. They are of a deep pink color and quite full; very fragrant.

Debutante. New Rambler Rose. This makes shoots 8 to 12 feet, with trailing habit. Flowers in clusters; color soft pink; deliciously scented. Leaves are almost evergreen. It flowers from September until frost.

Dorothy Perkins. Flowers are very double, of good size and are borne in clusters of ten to twenty, the clusters being borne in racemes of three to five, thus often making a group containing fifty to sixty blossoms upon a single small branch. The color is a clear shell-pink and holds a long time without fading; very sweetly scented.

Lady Gay. The flowers—in large loose clusters—are of a delicate cherry-pink color, fading to soft tinted white. The effect of a plant in full bloom, with the combination of soft white flowers, cherry-pink buds and deep green of the foliage, is indeed charming. It is perfectly hardy and unsurpassed for climbing work. 50 cts.

Pink Rambler (*Euphrosyne*). Possesses the same valuable features found in the White Rambler, with which it differs only in color of flower, which is a brilliant light carmine.

Queen of the Prairie. (P.) Bright rosy-red, frequently striped with white; large, compact and globular.

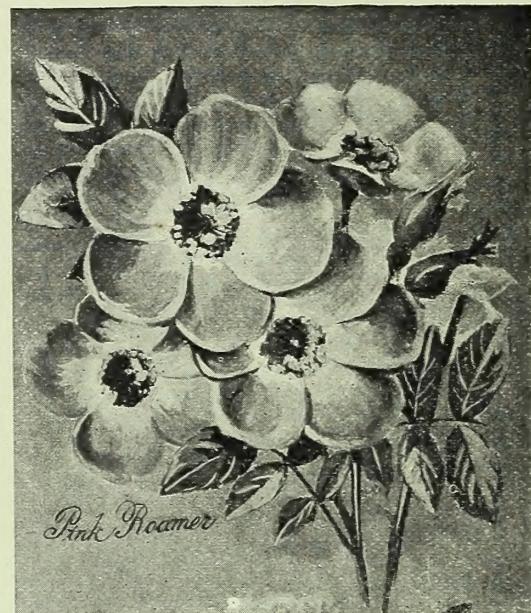

Psyche. A new Rambler, in habit like the Crimson Rambler, color white, suffused with salmon, rose and pink, with yellow base to petals.

Philadelphia Rambler. An improvement on the famous Crimson Rambler, flowers being larger, much more double and of a light crimson color.

Sweetheart. The flowers are very double; large, white, with reverse of petals pink. Growth of the plant prostrate and vigorous. For covering banks and rocks this Rose is unique. Sweetly scented. \$1.

White Rambler (*Thalia*). Color pure white, sometimes tinged with blush. Blooms in clusters; vigorous grower.

Yellow Rambler (*Aglaia*). Blooms in large clusters which last three or four weeks; color light Yellow.

Creeping Roses

25 cts. each; \$2 per 10; \$18 per 100
R. Wichuriana (The Memorial Rose). Used extensively for covering, embankments and stonework; flowers are pure white, borne in clusters and fragrant.

Wichuriana Hybrids

Evergreen Gem. Creamy white.

Gardenia. Cream color.

Jersey Beauty. Yellow.

Manda's Triumph. Double white.

Pink Roamer. Single, pink.

South Orange Perfection. Double blush-pink.

Universal Favorite. Double rose.

POT GROWN PLANTS OF STRAWBERRIES

Set out in late summer afford a fair crop of fruit in the following season, which layer plants will not do. We send by express only, and can speak confidently of the high qualities of our plants, which we pack and ship in a most careful manner. Such well-rooted plants start to grow at once, without hindrance, and losses are infrequent by this method of planting.

Standard Varieties \$3.00 per hundred, 250 for \$6.50, 500 for \$12.50, 1000 for \$25.00

Those marked (P) have pistillate or imperfect flowers, and must be planted near perfect flowering kinds, in order that the flowers may be fertilized. The varieties not so marked are bi-sexual or perfect-flowering, and can be planted alone.

Bismarck. (P) Resembling Bubach, but more robust and stocky in every way. It is the heaviest berry grown, and the claim is made for it, by experienced growers, that it is the most productive, high-flavored berry for market and home use yet introduced. Color, bright scarlet, and season medium to late.

Brandywine. One of the most highly recommended new varieties. Fruit of immense size. Color, bright, glossy crimson. Firm and solid, with aromatic flavor. Its great productiveness, size, and beauty render it most desirable for home garden. Midseason to late.

Bubach No. 5. Perfect. One of the best varieties we have. In productiveness unsurpassed. Noted for its uniform and large size. The plant is hardy and the leaves endure hot sun, as it is a robust variety; does not rust.

Excelsior. This is a valuable, early, perfect-blossoming strawberry. Large, fine color; vigorous plant; firm, productive, and desirable for home use or for market.

Gandy. Large and showy and uniform in size. Firm and fair quality. Strong grower and prolific. Valuable late variety.

Glen Mary. Exceedingly attractive, as large as Sharpless. Color, bright, glossy crimson, and so handsome as to bring the highest price in market; moderately firm, and fine in flavor. The plant is vigorous and healthy, very productive. A first-class berry.

Haverland. (P) Large, long, light red, moderately firm, medium quality, ripens all over. Very vigorous and healthy, and a great yielder; a valuable addition to the list of varieties for home use or market. Needs to be well mulched to keep the fruit clean; season early.

Mead. Midseason. Perfect. A new variety from Massachusetts, very highly recommended. "Plant of perfect health and vigor; perfect flavoring, perfect form, of highest quality, rich,

We can furnish many other varieties, but we believe the above list comprises the most of the best tested standard kinds.

glossy red on outside, and has red flesh all the way through; a great cropper, ranking with Clyde, Sample, and Glen Mary; a good shipper; will thrive on light land as on any other; has no small berries, all the late formed ones come up to good size."

Minute Man. (P) This berry, after extended trials on heavy and light soils, has produced an unexampled crop of fruit, selling for a large percentage higher than any other berry. The fruit is a brilliant crimson, fully on a par with Marshall as to quality, and ripens as early as Bubach. After years of trial it has proven its value as a berry which will "stay put," especially with New England growers.

Marshall. One of the best, the quality being all that can be desired. Fruit immense in size and freely borne. Midseason.

Senator Dunlap. A fine new standard berry, crimson, medium size, midseason, of extra quality and very productive.

Charles Downing. Large, firm and good for market or garden, medium.

Crescent Seedling. P. Good size, a strong grower, very productive, one of the best for market and garden. Season early to medium.

Sharpless. One of the best strawberries in cultivation; has held its reputation better than any other variety. Possesses ALL the good qualities looked for in a strawberry; the best variety for the HOME garden. A strong grower, productive and largest size. The best early sort.

Wilson. The most popular market variety, universally successful, reliable and productive; color red, flesh firm of high character. Early.

EVERGREEN TREES

For August and September Planting

Our nurseries at Bedford contain the largest collection of Evergreen Trees to be found in New England. We do not attempt in this list to describe all the varieties we grow, only such as can be moved successfully in the autumn. The stock we offer has been root-pruned and several times transplanted. The trees are lifted with balls of roots which are wrapped with burlap before shipping, and we guarantee them to reach destination in perfect condition.

Evergreens in Tubs and Boxes. We have a large assortment of specimen evergreens of various sizes, established in tubs and boxes, suitable for VERANDA, HALL and WINDOW decoration. These will be furnished at the regular rates, with cost of tubs or boxes added. After serving their purpose, these plants can be transferred to open ground with safety.

Abies. Fir

Abies balsamea. Balsam Fir. One of our hardest evergreens; of pyramidal and rapid growth. Dark green foliage, silvery beneath. 2 to 3 ft. 50 cts.; \$4.00 per 10; 3 to 4 ft. 60 cts., \$5.00 per 10; 4 to 5 ft. 90 cts., \$7.50 per 10; 5 to 6 ft., \$1.00, \$9.00 per 10.

A. concolor (White Fir). A native species, with long, broad foliage, bluish above and silvery beneath. Of all Fir trees, it best withstands heat and drought. Very hardy and grows rapidly; graceful and most desirable. Exceedingly rare. 3 ft. \$3.50, \$30.00 per 10; 4 ft. \$5.00; 5 ft. \$7.50; 6 ft. \$10.00. Large specimens \$12.00 to \$25.00 each.

A. Fraseri. Similar to the Balsam Fir, with richer and darker foliage. Very desirable. 2 to 3 ft. 50 cts., \$4.00 per 10; 3 to 4 ft. 75 cts., \$6.00 per 10.

Picea. Spruce

Picea Alba (White Spruce). A native of the northern parts of America. One of our best conifers. Compact and upright grower. Of great longevity. Light, silvery green foliage. Will stand severe pruning. Used for wind-breaks and hedges. 3 ft. 60 cts., \$5.00 per 10; 4 ft. 75 cts., 5 ft. \$1.00.

P. Engelmanni (Englemann's Spruce). Form dense, and narrow pyramidal in young trees. Foliage compact and of a bluish tint. Closely resembles the *Picea pungens*. 2 ft. 60 cts., \$5 per 10; 3 ft. 95 cts., \$8 per 10; 4 ft. \$1.50.

P. excelsa (Norway Spruce). Extensively planted as an ornamental in northern and eastern states. Graceful habit and rapid growth. Foliage dense and dark green. Used for shelters and windbreaks. 3 ft. 60 cts., \$5.00 per 10; 4 ft. 90 cts., \$8.00 per 10; 5 ft. \$1.25, 6 ft. \$2.50.

var. inverta (Weeping Norway Spruce). Ss. Drooping branches closely appressed to the stem. Desirable as a novelty. 3 ft. \$2.00, 4 ft. \$3.00, 5 ft. \$5.00.

P. excelsa Compacta. Small, dense growth. 12 in. 75 cts., 18 in. \$1.25.

P. ex. conica. Cone-like growth; very dense, dwarf and compact. One of the best of small growing Conifers. 18 in. 75 cts., 2 ft. \$1.00, 3 ft. \$2.00.

P. ex. Aurea. A golden-leaved form, most beautiful and distinct. In the early part of the season this is a brilliantly colored tree and quite a favorite with planters. 6 ft. \$5.00.

P. ex. pyramidalis. Of tall, slim pyramidal growth, very useful in many locations. 2 ft. 75 cts., 3 ft. \$1.00.

P. nigra (Black Spruce). Native variety, resembling *Picea excelsa*. Often pendulous branches forming narrow, irregular head. Bark brown or yellowish brown. Foliage light green. 3 ft. \$1.00.

P. polita (Tiger tail Spruce). A tree forming a dense, broad pyramid, with rich stout branches. Stiff and sharp leaves of a pleasing shade of green. 2 ft., 75 cts., 3 ft. \$1.00.

P. orientalis (Eastern Spruce). Graceful Spruce, with dark glossy foliage. Slow growth. 18 in. 50 cts., \$4.00 per 10; 2 ft. 75 cts.

P. pungens (Colorado Spruce). Handsome and hardy, of symmetrical and pyramidal habit, with light, sometimes almost silvery white foliage. 2 ft. \$1.00, \$7.50 per 10; 3 ft. \$2.00, 4 ft. \$3.00, 5 ft. \$4.00.

var. glauca (Colorado Blue Spruce). Form of *Picea pungens*, with the same general character but the foliage is of an exceedingly rich, silvery blue. Very valuable and handsome. 2 ft. \$2.50, 3 ft. \$4.00, 4 ft. \$6.00.

var. Kosteriana (Koster's Blue Spruce). Form of *Pungens*. Foliage steel-blue. Color uniform. 2 ft. \$3.00, 3 ft. \$5.00, 4 ft. \$7.00.

Planters are referred to our
Complete Illustrated Catalogue,
containing accurate and trust-
worthy descriptions of the best
fruits for orchard and garden,
as well as the choicest Orna-
mental Trees, Flowering Shrubs,
Evergreens, Roses, Hardw
Plants, etc.

PINUS. Pine

Pinus Austriaca (Austrian Pine). One of the best evergreens for seashore planting. Vigorous growth. A variety with long, dark green stiff needles. 2 ft. 50 cts., 3 ft. 75 cts., 4 ft. \$1.00.

P. Cembra (Swiss Stone Pine). A tree of conical form; silvery foliage. An elegant and valuable ornamental. 2 ft. \$1., 3 ft. \$2, 4 ft. \$2.50.

P. excelsa (Bhotan Pine). Resembles the White Pine. Leaves are more silvery, graceful and pendulous. A noble tree. 2 ft. 50 cts., 3 ft. 75 cts.

Pinus Mughus (Dwarf Mountain Pine). Very valuable where a low, dense, spreading growth is desired. Foliage deep green and leaves short. Very hardy. We offer some fine specimens of this variety. 18 in. 75 cts., 2 ft. \$1.00, 3 ft. \$2.50.

Pinus resinosa (Red Pine). A native Pine with red bark and light green foliage. 2 ft. 40 cts., 3 ft., 60 cts.

P. strobus (White Pine). One of the most valuable and stately of our native evergreens. Light silvery foliage. Highly ornamental. Should be extensively planted. 2 ft. 50 cts., \$4.00 per 10; 3 ft. 75 cts., \$6.00 per 10.

P. sylvestris (Scotch Pine). One of the hardiest of the Pines. Growth dense. Foliage bluish green. Valuable for shelter. 3 ft. 50 cts., 4 ft. 75 cts., 5 ft. \$1.00.

RETINOSPORA. Japan Cypress

R. filifera (Thread-branched Japan Cypress). A tree of very graceful appearance with bright green foliage, slender, string-like and drooping. Very beautiful and ornamental. 18 in. 50 cts., 2 ft. 75 cts., 3 ft. \$1.00.

R. plumosa (Plume-like Japan Cypress.) Useful for specimens or hedges; foliage light green and plume-like; extensively planted. 4 ft. \$2.00, 2 ft. 75 cts., 18 in. 50 cts.

var. aurea (Golden Japan Cypress). Lm. Golden form of *R. plumosa*. 2 ft. \$1.00.

PYRAMIDAL ARBOR VITAE
[From specimen on our grounds.]

THUYA. Arborvitae

Thuya occidentalis (American Arborvitæ). Mr. The common upright, densely branched evergreens so commonly used for single specimens, hedges and windbreaks. Stands close pruning. 2 ft. 30 cts., \$2.50 per 10; 3 ft. 50 cts., \$4.00 per 10, 4 ft. \$1.00, 5 ft. \$1.50.

var. aurea George (Peabody's Arborvitæ). Mr. A choice variety, with foliage of the most intense golden color. 2 ft. \$1.00, 3 ft. \$1.50, 4 ft. \$2.00.

var. Hoveyi (Hovey's Golden Arborvitæ). Ds. Another low, globular form, with foliage of a distinctly golden tinge. 18 in. 50 cts., 2 ft. 75 cts., 3 ft. \$1.50.

var. pyramidalis (Pyramidal Arborvitæ). Of very distinct, columnar growth; very densely branched and with foliage of a rich, dark glossy green, which does not change appreciably in color during the winter months. 2 ft. 50 cts., 3 ft. \$1.00, 4 ft. \$1.50, 5 ft. \$2.00.

var. Siberica (Siberian Arbor vitæ). Very distinct variety, with coarser foliage than the type and less upright in habit of growth; forms a broad, dense bush, giving a rich green effect. Very desirable for single planting or as a hedge plant. 18 in. 50 cts., 2 ft. \$1.00, 3 ft. \$2.00.

var. Siberica; syn., Warreana (Siberian Arborvitæ). A very hardy variety with heavy bluish green foliage. 4 ft. \$2.00, 5 ft. \$3.00.

var. Tom Thumb. Of slow compact growth and symmetrical habit. Very dwarf. 12 in. 50 cts.

var. Vervaeana (Vervae's Arborvitæ). Sm. A very choice variety. Dense habit; foliage variegated with yellow. 18 in. 50 cts., 24 in. 75 cts., 3 ft. \$1.00.

T. var. p. minima. Little Gem. Very dwarf, not making over an inch of growth yearly, spreading out into a mat of foliage. 75 cts.

Dwarf Box. Very heavy for edging. \$1.00 per 10; \$8.00 per 100.

EUONYMUS. Spindle Tree

Euonymus radicans (Creeping Euonymus). A low procumbent shrub with ascending and spreading branches. Invaluable self-clinging vine. 4 years strong, 25 cts., \$2.00 per 10.

var. variegata (Variegated Creeping Euonymus). Similar to the above, Variegated with white, yellow and pink shades. 2 years 25 cts., \$2.00 per 10.

KALMIA. Laurel.

K. latifolia (Mountain Laurel). Evergreen shrub with dense, round-topped head; leaves broad, glossy, dark green above and yellowish green below. The flowers, beautiful pink and white are borne in large, terminal compound corymbs. In their prime about the middle of June. 12 in. clumps \$1.00, \$7.50 per 10; 18 in. \$1.25, \$10.00 per 10; 24 in. \$1.50, \$12.50 per 10. By the hundred or in carload lots, prices on application.

RHODODENDRONS

The hybrid varieties we offer have all been tested and found hardy in the climate of Boston and vicinity.

HYBRIDS

18 in. with buds \$1.25, \$10.00 per 10.

24 in. with buds \$1.50, \$12.50 per 10.

30 in. with buds \$2.00, \$17.50 per 10.

Album elegans. Blush, changing to white. Tall grower with fine truss.

Boule de Neige. Pure white.

Caractacus. Rich purplish crimson.

Delicatissimum. Clear white, delicately tinted with pink. Glossy foliage, good grower.

Everestianum. Best perfectly hardy Rhododendron. Rosy lilac, fringed and crimped.

Gen. Grant. Crimson-pink. Good habit and foliage.

Giganteum. Large, rosy crimson.

Gloriosum. White, bold flower and good foliage.

Mrs. Minler. Rich, dark red. Foliage and habit good.

Roseum elegans. Best of all Rhododendrons. Fine rose color.

R. maximum (Great Laurel). Broad-leaved evergreen shrub. Flower rosy white to white, produced in late June and July. Foliage the most beautiful of any Rhododendron, being very thick, smooth and twice as large as that of any other sort. 2 ft. \$1, 3 ft. \$1.50, 4 ft. \$2. Prices on application, by hundred and carloads.

Vinca

Periwinkle or Trailing Myrtle

Vinca minor. 8 in. Handsome evergreen foliage; showy bright blue flowers, borne freely in early spring and at intervals throughout the summer and autumn. 10 cts., \$8.00 per 100.

YUCCA FILAMENTOSA

YUCCA. Adam's Needle

Yucca filamentosa. An evergreen shrub with long-pointed leaves; producing panicles of large ivory, white flowers in midsummer. Extra strong plants 25 cts., \$2.00 per 10.

HARDY PERENNIAL PLANTS, FERNS AND GRASSES

Prices except where noted, for field-grown plants, 15 cents each; \$1.20 per 10; \$10.00 per 100. Fifty furnished at 100 rates. Single plants by mail 25 cents.

Acanthus

Acanthus mollis. 3 feet. A striking foliage plant; flower-spikes loose, pubescent.

Achillea. Milfoil, or arrow

Achillae AEgyptica. 12 to 18 inches. Flat heads of pale yellow flowers.

A. Ptarmica, var. *The Pearl*. Small, double, white flowers covering the plant in July; much used for cut-flowers.

Aconitum

Aconitum autumnale (Autumn Aconite). 3 to 5 feet. October. Blue, lilac, or whitish flowers in a simple spike, becoming a panicle; showy.

A. uncinatum (Wild Monkshood). 3 to 5 feet. Deep purple flowers in June and July.

Acorus

Acorus calamus variegatus (Variegated Sweet Flag). Foliage beautifully striped with white. Suited to moist ground.

Alstroemeria. Peruvian Lily

Alstroemeria aurantiaca. 2 to 4 ft. A very vigorous species, flowering in summer and autumn in umbels. Flowers lily-like, orange.

Alyssum. Madwort

A. saxatile compactum. 1 ft. April to June. Broad velvety gray foliage,

BACCHARIS CORDATA

surmounted by elegant, small, fragrant yellow flowers, in heads. A choice plant and indispensable.

Anchusa. Alkanet

Anchusa Italica. Height 3 to 5 ft. Large heads of fine blue flowers in June, similar to forget-me-nots.

Anthemis. Chamomile

A. tinctoria (Golden Marguerite). Of bushy habit, 2 to 3 feet, with angular stem and daisy-like golden yellow flowers, one-half inch across. Valuable.

Aquilegia. Columbine

Aquilegia caerulea. The true blue Rocky Mountain Columbine. 1 to 1½ feet. Flowers two inches across, whitish but variously tinted with light blue and yellow; sepals often blue; handsome, much-divided foliage.

A. Canadensis. Our well-known native species, with scarlet sepals and bright yellow petals; easily cultivated.

A. chrysanthia. Numerous fragrant and showy golden yellow flowers, with long, slender spurs.

A. vulgaris. Flowers in all shades of blue, white red, and purple; strong, vigorous habit of growth; an effective border plant.

var. alba. Large, pure white flowers; of great value for cutting. Most showy.

Arabis. Rock Cress

Arabis albida. 6 to 9 inches. Especially adapted for rock work and edgings and for covering steep banks; fragrant white flowers in May.

Asclepias. Milkweed

Armeria cephalotes rubra. Handsome deep rose or crimson flowers arranged in a close globular head on a long stem. Dark green, evergreen foliage in a close tuft about 6 inches high.

A. maritima (Cushion Pink). 3 to 6 in. May and June. Grass-like foliage, with fine purple flowers. Valuable for edging and front borders.

A. tuberosa. Brilliant orange-colored flowers; excellent for dry banks and fields.

Astilbe, or Spiraea

Spiraea aruncus. A lovely border perennial producing long, feathery panicles of innumerable small, white flowers, forming a gigantic plume. Very graceful.

S. astilboides. A beautiful Japanese species belonging to the Aruncus group, about 2 feet high, producing dense plumes of feathery white flowers.

S. filipendula flore pleno. Numerous corymbs of double white flowers and pretty, fern-like foliage. One of the best, most useful and showy perennials.

Hardy Asters

A. amellus Bessarabicus. Rich purplish blue flowers with orange center; one of the finest.

A. Lady Trevellyn. 4 ft. Immense heads of white flowers with yellow center. Most conspicuous and ornamental.

A. Madonna. The best white Aster in cultivation very floriferous.

Bacconia. Plume Poppy

Bacconia cordata. 5 to 8 ft. July and August. An attractive plant with large heart-shaped foliage; spikes of purplish white flowers.

Boltonia. False Chamomile

Boltonia asteroides. October. Stems 2 to 8 ft. simple below and branching at the top. Numerous aster-like white flowers.

B. latisquama. 5 ft. July to October. A handsome plant with large showy heads of lilac purple flowers.

Campanula. Bellflower

C. carpatica (Carpathian Harebell). 9 to 18 in. June to September. Flowers large, often 1½ inches wide, deep blue.

var. alba. White-flowered variety of the above.

C. macrantha. Erect, pyramidal bush, 3 to 4 feet high, with large purplish blue flowers; thrives in any soil; useful as a border plant.

C. media (Canterbury Bell). Biennial, 1 to 4 feet high; flowers blue, white and rose.

Hardy Pompon Chrysanthemums

The hardy pompons are rapidly coming into general favor as bedding plants. The flowers are very double and are borne in great profusion. September. All colors. 12 cts. each; \$1.00 per 10; \$8 per 100.

Burbank's New Shasta Daisies

The following varieties are a marked improvement upon the original Shasta Daisy.

Alaska. A gigantic flower averaging nearly 5 inches across. Dwarf in habit. Color, glistening white. 25 cents each.

California. In habit like the above, the opening buds, however, of a fine yellow color, changing to white. 25 cents each.

Westralia. Flowers creamy white but habits of plant branching and distinct in every way, the height of plant ranging from 3 to 4 feet. The flowers are very large and showy. 25 cts. each.

Coreopsis Tick Seed.

C. grandiflora. 3 feet. Early summer until frost. Large yellow flowers on long stems.

C. lanceolata. 2 feet. June. Brilliant golden yellow blossoms in great profusion throughout the season.

Delphinium Larkspur

D. Chinese. 1 ft. June to August. Small, deep sky-blue flowers. Elegant and distinct dwarf species.

var alba. White form of the above.

D. formosum. 2 to 4 ft. June and July. Rich, dark blue tinged with purple; white eye. One of the best.

Seedling Delphiniums

We have a splendid collection of unnamed seedlings, a large proportion of which are fully equal to some of the named sorts and comprise every shade of color. These are fine for massing.

Dianthus. Pink

Dianthus barbatus (Sweet William). 20 in. June and July. One of the oldest garden flowers; one which perpetuates itself by self-sowing. Colors brilliant and effective.

D. plumarius (Scotch, or Garden Pink). 9 in. June. Pink, purplish and white, fragrant flowers on long spikes. Handsome, glaucous green foliage.

D. semperflorens. 15 in. Dark pink fragrant flowers of good size, with red center. Foliage silvery and fine. A fine pink.

Hybird Garden Pinks

Essex Witch. A free-blooming pink variety.

Homer. Rich crimson, clover-scented; finely fringed.

Her Majesty. Very large, double, pure white fragrant flowers, freely produced on long stems all summer. 25 cents.

Dictamnus Fraxinella, Gas Plant

Dictamnus fraxinella. 2 to 3 ft. May and June. A very showy border perennial forming a bush, having fragrant foliage and spikes of curious red flowers.

D., var. *alba*. 2 to 3 ft. June and July. Similar to the preceding, but with white flowers.

Dicentra, or Dielytra

Dicentra eximia. 18 in. All summer. Rose-colored flowers; foliage fern-like. Flowers all summer.

D. spectabilis (Bleeding Heart). 2 ft. April to July.

Digitalis. Foxglove

D. purpurea. 2 to 3 ft. June and July. Elegant spikes of beautiful tubular flowers of various shades of purple to white, and with variously colored, potted throats.

Digitalis ambigua, or *grandiflora*. 2 ft. June and July. A hardy perennial Foxglove, with yellowish flowers, marked with brown.

Echinacea. Cone Flower

Echinacea purpurea. 2 to 4 ft. A showy, strong growing plant with flowers of great duration in August and September. Large, reddish purple flowers, with drooping rays.

Eulalia

Eulalia Japonica. 4 ft. A vigorous grower, with large plumes. Very popular ornamental grass. var. *gracillima*. 4 to 5 ft. Very hardy. Leaves narrow, dark green, with silvery white midrib. Very ornamental.

var. *variegata*. 4 ft. Handsomely variegated leaves.

var. *zebrina* (Zebra-striped Eulalia). One of the most beautiful of ornamental grasses; foliage marked crosswise with bands of white and green.

Festuca. Fescue Grass

Neat tufted grass of easy culture; fine for edging.

Festuca glauca. 12 to 18 in. June and July. Handsome, light, glaucous blue foliage; fine.

Funkia. Plantain Lily

F. grandiflora (Subcordata). 2 ft. July to September. A fine pure white, large, trumpet-flowered and exceedingly fragrant species, with handsome, broad, light green foliage.

F. lancifolia. 2 ft. August, Deep green, lanceolate foliage and spikes of lilac flowers.

F., var. *undulata variegata*. A form with undulate foliage, most conspicuously and handsomely variegated with white. A fine foliage plant, and one of the best edging plants.

F. Sieboldiana. 2 ft. June and July. Very glaucous foliage, and handsome spikes of pale lilac flowers.

Gaillardia. Blanket-flower

Gaillardia aristata. 2 ft. June to November. Dark red and brown center, with orange, crimson and red petals, shaped into rings of color.

G. grandiflorum. 2 ft. Large, gorgeous flowers of crimson and gold, blooming throughout the season.

Gypsophila. Chalk Plant

G. paniculata. 2 ft. July and August. An effective border plant, forming a symmetrical bush, covered with white flowers; one of the most elegant of hardy plants for cutting purposes.

G. Stevenii. 2 ft. June and July. A lovely plant similar to paniculata, but dwarfer, earlier and individual flowers larger. Valuable for cutting.

Helenium. Sneezewort

Helenium autumnale superbum. 5 to 6 ft. August and September. A showy and elegant species, with golden yellow flowers.

H. grandicephalum striatum. 4 ft. September. Flowers on branching heads, deep orange striped and blotched with crimson.

H. Hoopesii. 3 to 4 ft. June to September. Flowers bright orange yellow; very showy.

Helianthus. Sunflower

Helianthus decapetalus. 5 feet. September to frost. Clear yellow flowers; immense panicles.

H. laetiflorus. 5 ft. In bloom from July until frost. Its semi-double, deep orange-yellow flowers are borne singly on wiry stems, well adapted for cutting purposes.

H. mollis. 5 ft. August and September. Elegant lemon-yellow flowers and heavy, velvety foliage.

H. tuberosa (Jerusalem Artichoke). 3 to 4 ft. Has showy, yellow flowers. Tubers edible.

Hemerocallis. Daily Lily

H. fulva. 4 feet. Handsome foliage; large, tawny flowers.

H. Gold Dust. Very large golden yellow flowers through July and August.

H. Sieboldi. 1½ to 2 feet. July. Flowers orange-yellow; large; leaves long, narrow and tapering.

H. Thunbergiana. 3 feet. June. Rich, clear, beautiful yellow flowers; sweet-scented; late.

Heuchera. Alum Root

H. Brizoides. Long stalks and bright pink flowers.

H. sanguinea. 18 in. June to August. Flowers bright crimson; very free-flowering; hardy.

Hibiscus. Mallow

H. Moscheutos (Swamp Rose Mallow.) 4 to 6 ft August. Flowers white with a purplish center, or sometimes pale purple; large. var. "Crimson Eye" 4 ft. Flowers 6 to 8 inches across, pure white, with crimson center; expand wide; leaves bronze-tinted.

Hollyhocks

The revival of this plant in popular favor is a good indication of the change in taste which is setting in favor of hardy plants. These are well adapted for growth at the rear of garden beds, and for creating effects where tall, showy and withal graceful plants are needed. We offer both double and single sorts in the widest range of color, from white to almost black.

Iberis. Candytuft

I. sempervirens (Evergreen Candytuft.) 1 ft. May and June. Of spreading habit; flowers pure white, completely covering the plant with bloom; one of the finest border plants. Valuable for forcing.

IRIS

German Iris. Iris Germanica

Including all the broad-leaved varieties, which usually pass as German Iris. They are very useful in a cut state, the buds opening rapidly in water. They bloom in June and require rich soil.

20 cts. each; \$1.50 per 10; \$12 per 100

Aurea. Golden yellow.

Blue Bird. Rich, indigo blue.

Celeste. Pure celestial blue.

Donna Maria. Pearly white, shaded lilac.

Duchesse de Nemours. Pale lilac, purplish violet, veined and margined white.

Flavescens. Light primrose yellow.

Fringed (Alleghany) Hollyhock

Semi-double flowers; charmingly fringed, possessing odd tints peculiar to this variety only. Superior to all others. Limited stock. 20 cts. each, \$1.50 for 10, \$12 for 100.

SINGLE MIXED HOLLYHOCKS

Florentina. Light porcelain-blue, changing to nearly white.

Hector. Yellow, brownish red, stained purple.

Honorabilis. Indian-yellow, and chestnut-red.

La Tendre. Lavender, blue, veined violet.

Mad. Chereau. Pure white, distinctly and daintily penciled with violet. Exceedingly decorative.

Pallida speciosa. Rich, lavender-blue.

Princess of Wales. A lovely combination of violet-purple, violet and yellow.

Queen of May (Rosy Gem). Cheerful, bright rosy lavender.

Japanese Iris. Iris Kaempferi

A very important group of hardy Iris, quite distinct from any other. They are of strong, vigorous growth, with very large single, double or semi-double flowers, beautifully colored. Well adapted for damp, sunny locations, in loam or sandy soil. We offer a large collection of named varieties. See General Catalog.

Named Double

25 cts. each; \$2 per 10; \$15 per 100

Blue Danube. Deep indigo-blue, violet shading, yellow center; very fine.

Blue Jay. Sky-blue, distinct white lines on each petal.

Chameleon. Dark reddish pink, striped and mottled white.

Charmier. Azure-blue, white center.

Eclipse. Self-color of reddish purple; fine and often triple.

J. C. Vaughan. Pure white; very large and fine.

New York. Reddish maroon, mottled white yellow center.

Orion. Reddish pink center.

Othello. Deep rich purple, light blue towards the center.

Pyramid. Lilac-blue, veined white in center of petals.

Robert Craig. Ash-gray, with violet veins; extra large flowers.

Turban. Light pink, violet-shaded, purple center; one of the best.

Named Single

25 cts. each; \$2 per 10; \$15 per 100

Babylon. Reddish purple; very rich color; extra large flower.

Blue Bird. Deep velvet-blue.

Diana. White-veined, violet-purple, lilac center.

Granite. Purple, spotted and flaked white, lilac center.

Helene von Sieboldt. Deep pink, white lines.

Maltese. Lavender, shaded purple; purple center.

Mirage. Light pink, suffused with a light blue towards the center.

Ondine. Pure white, shaded light blue towards the center. Flowers very large and fine.

Oscar. Dark red-purple, changing to a very light color.

Porcelain Scepter. Bluish white, pink center.

Shadow. Self-color of reddish purple; very fine.

Venus. Pure white.

Named Varieties. Our selection, \$2 for 10.

Double Mixed Varieties. Our selection, \$2 for 10.

Double and Single Mixed. Unnamed, but showy varieties. Our selection, \$1.50 for 10.

Miscellaneous Irises

FULL DESCRIPTION WITH PRICES GIVEN IN OUR NEW GENERAL CATALOG

OUR NEW ILLUSTRATED CATALOG

WE shall be pleased to mail free a copy of our New Illustrated Catalog to all who indicate a desire for it. The book contains reliable information and planting suggestions of interest to all who have homes to beautify and gardens to plant. It also describes the trees, shrubs and plants hardy in New England. It will be mailed only upon request.

AN INVITATION

We cordially invite all who can to visit our Nurseries. Our grounds lie along and on both sides of "The Great Road" leading from Lexington and Bedford to Concord. Electric cars marked either "Concord" or "Lowell," leaving Sullivan Square at frequent intervals, pass directly through or make connections with cars passing through our Nurseries. Visitors may also take train from North Union Station, Boston, (B. & M. R. R.) for Shady Hill Station, Bedford. This station is located in the center of our Nursery.
